INNOVATION IN WOOD

KARSOL FOREST

The respect of raw material plays an important role in our corporate values, therefore, in 2017, the KARSOL FOREST Kft. was established, which deals with forest plantation and logging. The forest is going to serve the high-quality raw material supply necessary for coffins manufactured in the plant of the Karsol.

WHAT WE ARE PROUD OF

The largest funeral company of Central Europe, the Karsol Kft. celebrates its 20th birthday in 2023. During the two decades, this SME in Nyíradony exhibited an almost unbelievable development from scratch, and it still proves with unchanged momentum and inspiring achievements that it deserved its position among the companies determining the funeral culture of Europe.
